In the Second Stage, the price proposal of all contractors, who have attained minimum 70% score (490 points out of 700) in the technical evaluation will be compared.

The total amount of points allocated for the price component is 300. The maximum number of points will be allotted to the lowest price proposal that is opened and compared with those other technically qualified offers. All other price proposals will receive points in inverse proportion to the lowest price; e.g.:

$$[\text{Total Price Component: 300 points}] \times [\text{lowest offer}] / [\text{other financial offer}] = \text{points for other financial offer.}$$

The offer receiving the highest sum of technical and financial scores will be considered as the most favorable offer by the Evaluation Panel and will be recommended for contract.
